---

How fortunate we are both as a school and as a family that at times of economic hardship, we have faith in the future and rise to the occasion. As I see the walls of our new learning center going up, I go back to 1983 when we were making the decision to purchase our current building with little money and lots of faith.

It has been over 25 years. Thousands of children have grown and blossomed here. We have added a conservatory, a library, a cafeteria, a theater, a fitness cluster, two sports courts, and fully remodeled our 2<sup>nd</sup> floor to house state-of-the-art technology.

Our new learning center will benefit every one of our students. The new center will house 6 classrooms with bathrooms, office space, and a multi-purpose room which will serve all of our school (K-8<sup>th</sup> Grade) and conservatory students. In our main building, it will free five classrooms and office space, enabling us to enlarge and remodel our classrooms and add an elementary science lab.

These are tangibles. The intangibles make all the difference in the lives of our students. The quality of education, the care, the sense of pride, the community spirit, the creativity through the arts, the development of a value system, the sense of service and compassion, and the acquisition of life skills needed to build a better world – those are Conchita's gifts. They are the reason you keep your children here.

We are aware of how hard you work to guarantee the best for your children. And we are committed to doing our part.

We are aware of how much time, work, money, and effort you're putting into making our Walk for the Future a success – a success that will take care of the tangibles, but most of all will enhance the intangibles: trust, a sense of family, and a common purpose.

Thank you!

Many blessings,
