

**Conchita Means the Future
By Christina Teixeira
3rd Grade**

Conchita means the future to me. I think that this school is made out of talent, courage, and persistence. I am grateful for this building made for us. Conchita is a place to explore and learn. But most of all, your creativity is important. The most important thing of all is the teachers and sponsors in this extraordinary and wonderful place that lies in front of us. Conchita is a unique school for all of us.
